

## Introduction:

The *Middleboro Gazette Index, 1930 – 1934* is a guide to the information contained within the *Middleboro Gazette* during the period January 1930 through December 1934. The information is as it appears in the newspaper. No attempt has been made to verify that the information given in the newspaper is accurate or to reconcile alternate spellings of family names.

The focus of the index is on the communities of Middleboro and Lakeville, Massachusetts. News from outside these geographic areas is included only if there is a direct link to these towns, i.e., Phineas T. Barnum and the Little People.

Special notations are used within the index to designate letters (l), tables (t), photographs (p) and illustrations (i). Authors of letters are cited either within the headline or in parentheses immediately following (l).

The often informal nature of reporting presents special challenges to researchers. Additional information about specific businesses, town departments or other concerns can be found under general headlines, i.e., Railroads, Streets, etc. when specific information is not provided.

Names are a particular challenge in a compilation of this kind. Multiple spellings, misspellings and incomplete names are just a few of the hurdles that must be overcome in order to glean every bit of information contained within the pages of the *Gazette*. For example, although there are both Pierce and Peirce families in Middleboro, inversion of the “i” and “e” is a common mistake. Sometimes the letter “n” is flipped and becomes a “u.” Because of the word-by-word alphabetization used in this index, names with prefixes, like De Moranville, do not fall in the same place in the index as when the name is spelled without a space, DeMoranville. There are countless examples of how easily names get lost in an index because of spelling errors, so it is advantageous for the researcher to take a broad view when conducting research on individuals and families.

It is my hope that the *Middleboro Gazette Index, 1930 – 1934* will provide a lasting resource for people researching the history of Middleboro and Lakeville, Massachusetts.

## Important Notes on Page Numbering:

- 1) Issue **01/24/30**: The masthead indicates that this issue should have 10 pages. Pages 9 and 10 can be found on the microfilm following the first eight pages of the 01/25/29 issue. Pages 1 through 8 can be found on the microfilm in the proper position following the 01/17/30 issue. Be aware that there are some duplicate pages on the microfilm for the 01/24/30 issue.

- 2) Issue **01/31/30**: This issue does not begin with the masthead page rather the first page to appear follows page 8 of the 01/24/30 issue. Please begin numbering the 01/31/30 issue with the page containing the Wenham Garage advertisement in the upper left hand corner. This would put the masthead as page 5. Disregard any duplicate pages and references to page numbers within articles, and continue numbering the pages consecutively through 10.
- 3) Issue **05/23/30**: Following the first four pages of this issue are pages 5 through 8 from the 11/21/30 issue. Following those are pages 5 through 8 of the 05/23/30 issue.
- 4) **Issue 06/13/30**: Beginning with the masthead, six pages of this issue are in the following order, page 1, 2, 7, 8, 9, and 10. Following these are four pages from the 6/20/30 issue. And following these are page 3, 4, 5, and 6 of the 06/13/30 issue, in that order.
- 5) Issue **06/20/30**: This is the issue containing the information from the annual high school commencement. The pages for this issue can be found in three places. 1) Beginning with the masthead are pages 1, 2, 9, and 10, in that order. Pages 3, 4, 5, and 6 of this issue can be found following page 8 of the 10/17/30 issue. And finally, pages 7 and 8 can be found following the first four pages of the 11/21/30 issue.
- 6) Issue **10/17/1930**: Following page 10 of the 10/10/30 issue are two pages which are duplicates of others found elsewhere, please ignore these. Following the first eight pages of the 10/17/30 issue are four pages from the 06/20/30 issue. These are then followed by the last two pages of the 10/17/30 issue.
- 7) Issue **11/21/30**: The first four pages of this issue are in the correct location on the microfilm. The two additional pages following these four belong to the 06/20/30 issue (pages 7 and 8). The missing four pages (5 through 9) of the 11/21/30 issue can be found between pages 4 and 5 of the 05/23/30 issue.
- 8) Issue **03/04/1932**: Pages 9 and 10 precede pages 1 through 8.
